I. BACKGROUND

LEAD AGENCY: Walton County Sheriff Office - Sgt. Jeff Johnson
NPL: No
FUNDING: General
SITE ID#: A4BK
Potential Responsible Party (PRP): Erin Downey

II. SITUATION

NRC Incident #:
Date of Notification: 12 June 2003
Date Action Started: 12 June 2003
Pollutant: Meth Lab
Source Identification: Building/Garage type building next to house
Fatalities: None Evacuation: None

III. DESCRIPTION

On June 12, 2003 EPA Region 4 was notified by Sgt. Jeff Johnson, Walton County Sheriff Office to assist in conducting an investigation and removal of chemicals from a previously known meth lab. OSC Caprita and OSC Andrews responded with EPA Region 4's START contractor and found irritants, corrosives, solvents, metals, byproducts and unknowns. OSC Andrews performed hazardous waste categorization and found formide, sulfuric acid, formic acid, cough syrup, hydrochloric acid and other chemicals. OSC Caprita dispatched EPA Region 4's ERRS contractor to perform overpacking. OSC Caprita contacted DEA and their contractor to perform transporting and disposal through DEA's contract. OSC Caprita contacted the Walton County Sheriff

Office due to finding eight (8) pounds of alleged product (“Crystal”).

IV. ACTIONS TAKEN

OSC Caprita and Andrews including EPA Region 4's START and ERRS contractors completed hazardous waste categorization, air monitoring, overpacking and ensured removal and transporting to appropriate disposal site was complete.

V. FUTURE ACTIONS

No future actions by EPA.

VI. ESTIMATED COSTS

EPA, START and ERRS estimated cost at this time: \$10,000
